This rule makes minor technical changes to a number of existing rules. This rule will have no fiscal effect on the department or local units of government.

-This rule will allow the department to charge license applicants an additional \$3 for electronic processing of licenses, if applicants choose that option. However, that option is not currently available except on a few simple licenses.

-This rule adjusts current agricultural chemical cleanup program surcharges paid by fertilizer and pesticide license holders to conform to the new (lower) amounts specified by statute. However, DATCP has already implemented the new amounts, so this rule will not change the surcharge amounts currently being paid.

-This rule will not have a substantial impact on DATCP administrative or operating costs.
